

Solvent Saver - Flexo 200

10
YEARS
WARRANTY
ON
BOILING VESSEL

C1D1 Certified Explosion Proof

Disclaimer: Specifications and visuals are subject to change. Final equipment configuration may vary.

Recover Over 200 gal/day
of Flexographic Solvent

Recover up to 95%
of Available Solvent

Fully Automated &
Continuous Operation

Solvent Saver Features

Automatic Filling with Top Up	Automatic filling from a variety of containers. Topping up will automatically add more waste to the vessel during recovery.
Automatic Sludge Discharge	After each cycle the system can be configured to automatically open the discharge valve to empty to a waiting drum below the vessel.
High Pressure Clean in Place	60 PSI cleaning spray with multiple nozzles cleans the inside of the vessel between cycles.
Remote Access PLC	Allows your operator to control the PLC remotely, also allows Maratek to access for support.
Spare Parts Kits	All systems can be sold with a parts kit to minimize down time. If a part is used during the warranty period it will be replaced as usual.
Stainless Steel Construction	All product contacting surfaces are 304 Stainless Steel.
Touch Screen PLC	A touch screen is included for PLC control and programming.
Internal Mixer and Scraper	An internal scraper keeps the sides and bottom of the vessel free of sludge buildup while a mixer prevents foaming and improves heating efficiency.

Safety Features

C1D1	All Solvent Saver systems are MetLab Certified Class I Division I Explosion Proof.
Nitrocellulose Handling	A variety of safety features can be added to safely process wastes containing Nitrocellulose.
Vacuum Assistance	Multiple vacuum systems are available depending on your application to lower the heat needed to boil the solvent.
Anti Spill Sensors	The clean solvent and waste sludge containers are equipped with sensors to prevent spills.
