Rentals & Financing Available

Maratek has a variety of payment options, financing terms or rental plans available. Some units are in stock for short lead times. Contact us for more details.

Safety Features

Vacuum Assistance	A dry screw vacuum system lowers the temperature required to boil solvent.
Anti Spill Sensors	The clean solvent and waste sludge containers are equipped with sensors to prevent spills.
Nitrocellulose Safety Features	Additional temperature probes and water quenching can be included if your waste contains nitrocellulose.
Purge Box	This allows the PLC to be placed inside the C1D1 area.
C1D1	All Solvent Saver systems are MetLab Certified Class I Division I Explosion Proof.

Additional Features

480V Electrical Connection	All SSBP Systems use a 480V 3 phase 50/60 Hz connection. Transformers can be provided if needed.
Pneumatic Tilting	The system can be tilted 90 degrees for easy sludge removal and maintenance.
Stainless Steel Construction	All product contacting surfaces are 304 Stainless Steel.
Spare Parts Kit	All systems can be sold with a parts kit to minimize down time. If a part is used during the warranty period it will be replaced as usual.
90 PSI Air	All SSBP systems require a 90 PSI compressed air connection.
Footprint	A variety of vessel volumes and equipment sizes are used based on the needs of your application.

Automation Features

Automatic Filling with Top Up	Automatic filling from a variety of containers. Topping up will automatically add more waste to the vessel during recovery.
Allen Bradley PLC System	Allen Bradley Controls for industry leading automation.
Remote Access PLC	Lifetime remote viewing, control and Maratek support for your PLC is included.
Touch Screen PLC	A touch screen is included for PLC control and programming.
Automatic Sludge Discharge	If your sludge is pumpable we can program the PLC to automatically discharge it after each cycle.
Water Solvent Separator	Automatic water removal after recovery.
Dual Container Filling and Collection	Allows system to fill from two containers and discharge clean solvent to two containers.

About Maratek

Maratek is an award-winning industry leader in solvent recycling. We strive for the highest safety and quality standards with all our equipment designated as Class 1 Division 1 certified, and UL listed using only North American stainless steel, parts, and labor.

For over 50 years, Maratek has been engineering and manufacturing environmentally-friendly, high quality products that recycle solvents for the printing, coating, automotive, aerospace, food, paint, finishing, fiberglass, kitchen, pharmaceutical, manufacturing, and packaging, industries.

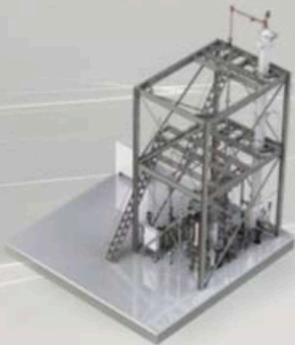

We have many solvent recovery and recycling equipment solutions to help you stay competitive. Maratek can also provide custom engineering solutions to suit your industrial waste recycling needs

The Maratek Family of Solvent Recovery Equipment & Services

Solvent Saver Batch - SSB

Fractional Distillation

Solvent Saver Batch Premium - SSBP

Solvent Saver Printing - SSP

Solvent Saver Continuous - SSC

Engineering Services

References available upon request with installation in facilities across the US, Canada and globally.
